

Table II – Revised to Authorities for startup/restart for SC Facilities

Hazard Category of facility being started		New Facility	DOE Mgmt directed, unplanned shutdown	Extended Shutdown*	Significant Facility modifications	Shutdown caused by Operations outside safety basis
Hazard Category 1	Authorization Authority	S-1 (Bodman)	Shutdown official ⁵	* 6 months Sec Officer (Orbach)	Sec Officer (Orbach)	Approval Authority of safety basis violated (Malosh)
	Review Type	ORR	ORR	ORR	ORR	ORR
Hazard Category 2	Authorization Authority	S-1 (Bodman)	Shutdown official ⁶	*12 months (Delegated to COO) (Malosh)	(Delegated to COO) (Malosh)	Approval Authority of safety basis violated (Malosh/Moore for ORO)
	Review Type	ORR	ORR	ORR	ORR	ORR
Hazard Category 3	Authorization Authority	(Delegated to COO) (Malosh)	Shutdown official ⁷	*24 months ⁸ Elevated to COO (Malosh, except for ORO)	Elevated to COO (Malosh, except for ORO)	Approval Authority of safety basis violated (Malosh/Moore for ORO)
	Review Type	ORR	ORR	RA	RA	ORR

Note the Order uses the term “operations office manager” for two of its “authorization authorities”. At Oak Ridge, the senior SC official is the operations office manager for readiness assessments.

⁵ This depends upon which DOE official directed the shutdown; if the shutdown official is S-1 this could be delegated if requested

⁶ This depends upon which DOE official directed the shutdown; if the shutdown official is S-1 this could be delegated if requested

⁷ This depends upon which DOE official directed the shutdown; if the shutdown official is S-1 this could be delegated if requested

⁸ The procedure prepared for SCMS has specified this period as 24 months for all of SC
